

ABOUT THE MAS.

Located between **St Remy**, **Avignon** and **Tarascon**, this unusual, imposing and beautiful property was once a stopping point for pilgrims on the way to **Santiago de Compostella**.

Set on fifty acres of land and surrounded by fields and woods, this large Provençal farmhouse, or *mas*, retains many of its original features but has been extensively renovated, with a thoughtful mix of antiques and contemporary furnishings. The interior is very spacious, with high ceilings and stone walls and floors in most of the rooms on the ground floor.

Upstairs, the rooms have a warm and welcoming feel. The house has four living

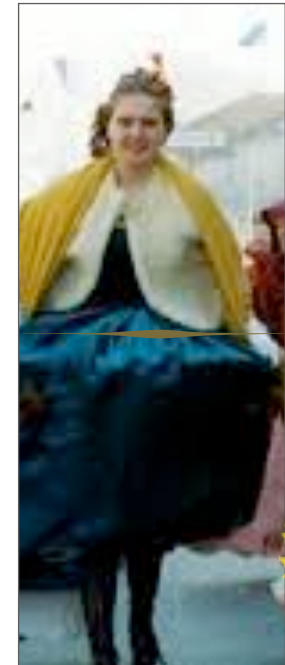

rooms, two open-plan kitchen/dining rooms, a large conservatory, five large bedrooms with en suite bathrooms (some have air conditioning), and four smaller bedrooms (two with queen beds and two with full beds). In total, the interior living space is almost 11,000 square feet..

PROVENCE
